

Wi-Fi-Enabled thermostats for small businesses

Enjoy comfort, convenience and control at your fingertips. Now you can get a Honeywell VisionPRO® 8000 Wi-Fi-enabled thermostat and professional installation—a \$265 value—**for just \$79** through BGE's Small Business Energy Solutions Program.

Benefits to your business

A Wi-Fi-enabled thermostat brings you:

- **Energy savings.** We'll program your device to work most efficiently for your business, which could save you up to 10% on your annual heating and cooling costs.*
- **Remote control.** Monitor and manage comfort settings from anywhere using your computer, tablet or smartphone and Resideo's Total Connect Comfort app.
- **Auto alerts.** Get notices on your smartphone or tablet when the temperature inside gets too hot or too cold.
- **Automated reminders.** Rely on your device to remind you about equipment checks and when it's time to change the filter, humidifier pad or UV bulb.
- **Easier multitasking.** With one app, you can manage multiple thermostats if your system is zoned, and you can control devices across multiple locations if you have more than one property.

To schedule an installation, contact our participating contractor:

*Savings compared to a conventional thermostat operating a 5-ton rooftop unit providing electric heating and cooling in a small retail environment. Your savings could be more or less depending on your equipment, fuel source, operating hours, and business and building type.

EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money. To learn more about EmPOWER and how you can participate, go to BGESmartEnergy.com.

Helpful features

- **Adaptive intelligent recovery.** Your thermostat learns your preferences over time and heats or cools to your preferred temperature before you arrive.
- **Built-in fresh air control.** Integrated ventilation control uses Wi-Fi weather data to avoid pulling in hot, cold or humid air.
- **Real-time clock.** Your device automatically adjusts for daylight savings and keeps time in the event of a power failure.
- **Simple setup.** Easy-to-follow menu guide you through the scheduling process.
- **Programming options.** Set a temperature for weekdays, weekends and holidays.

A \$265 value for just \$79!

Includes professional installation and programming.
