Business Energy Manager

EmPOWER MARYLAND

Easily understand how your business uses energy

Real-time data, real-world results

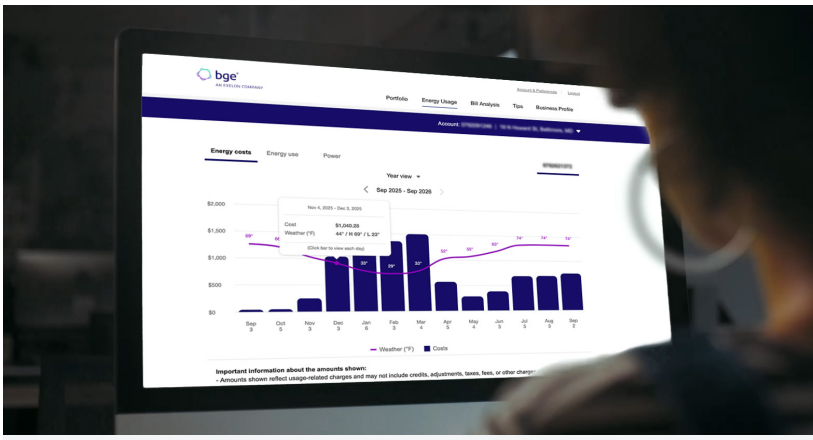

BGE Business Energy Manager can monitor and analyze your energy use in real time and show you how weather impacts your operation. The tool can generate and export custom reports, charts and graphs, and it can also recommend energy-saving strategies.

If you are a BGE account holder, you can access the tool to help save energy.

How to access BGE Business Energy Manager

1. Sign into your **MyAccount** page.
2. Select **Ways to Save**.
3. Select **For Your Business**.
4. Select **Business Energy Manager**.
5. Select **View Energy Manager**.

Scan the **QR code** or visit **BGE.com/MyAccount** to sign up today.

Uncover opportunities for greater energy efficiency

Taking control of energy use and managing costs are top priorities for businesses of all sizes. Curious about how your company consumes energy—and how you can save more of it?

BGE Business Energy Manager is here to help you make sense of your energy data. It's powerful, simple to use and comes at no additional charge to your business.

Invite guests to use BGE Business Energy Manager

Authorized BGE Business Energy Manager account holders can invite guest users to access the tool. Guest users are those who need visibility into one or more Business Energy Manager accounts but are not primary account holders. Once authorized, guest users receive read-only access to various tasks and data.

How to add a guest user to BGE Business Energy Manager

1. Sign into your **MyAccount** page.
2. Select **Ways to Save**.
3. Select **For Your Business**.
4. Select **Business Energy Manager**.
5. Click **Grant Access to Other Users**.
6. From here, you can access the **Manage Authorized Account Viewers** widget from your dashboard.
7. In the **Add Viewer** window, enter the guest user's first name, last name and email address.
8. Under **Access Mode**, choose the level of account access you want your invited guest to have.
   - **All accounts** – The guest user will have access to all accounts associated with the account owner.
   - **Select accounts** – Using checkboxes, you can choose one or more specific accounts the guest user can access.
9. Select **Send Invitation**. The user appears in the Account Viewers section with a Pending status until their account is activated.

Take an inside look at your energy use

- **Portfolio** – Manage multiple BGE accounts, compare energy costs per square foot and review off-hour usage and weather-related variances.
- **Energy Usage** – Track energy use across years, months or hours—even at 15-minute intervals.
- **Bill Analysis** – Dive deeper into your bill and see how it compares to previous months and years.
- **Tips** – Learn about no- and low-cost energy efficiency strategies as well as incentives available through BGE's Smart Energy Savers Program®.
